As the COVID-19 health crisis continues, your health, well-being and peace of mind remain our top priority. To ensure you have access to appropriate health care resources when you need them, your benefits have been extended as outlined below. If you would like to learn more, visit anthem.com/coronavirus.

Testing for COVID-19 at no cost

All Anthem plans cover COVID-19 testing with no out-of-pocket costs. If the COVID-19 test takes place during a care visit, the test and the care visit are covered with no out-of-pocket costs. You can find a COVID-19 testing location by visiting anthem.com/coronavirus and selecting Find a COVID-19 Test Facility. Talk to a doctor first to be certain you need a COVID-19 test. A doctor must order a COVID-19 test for you.

Information about your symptoms at no cost

The Sydney Care mobile app is a quick and easy way to find out what your symptoms may mean without leaving home. The app’s COVID-19 Assessment tool is free. It uses guidelines from the Centers for Disease Control and Prevention (CDC). Sydney Care can also connect you to a doctor for a telehealth visit after you use its COVID-19 Assessment feature. Sydney Care is available for iOS and Android devices. It works together with your Sydney Health or Engage Wellbeing app.
